A SHORT GUIDE

to the best varieties of Evergreens,
Shade Trees, Shrubs, Forestry
Seedlings, Transplants, etc., with
special quantity prices applying
for the Spring of 1929

KELSEY NURSERY SERVICE

—1878 to 1929—

(Member American Association of Nurserymen)

Kelsey Nursery Service

1. We furnish high quality stock. Kelsey Nursery stock is grown where it grows best; always, of course, with regard to shipping convenience. Of more than seventy nurseries with over twenty thousand acres of stock we select the nearest nursery growing the material of the quality and grade you may want.

2. We furnish our stock at the lowest prices made possible by mass production. Prices of nursery stock vary greatly. One nursery grows stock on land worth, say, \$4,000 or \$5,000 per acre. The stock is no better than that grown at a nearby nursery where land is worth perhaps \$400.00 per acre. Nature has no partiality in this respect. We are, therefore, enabled to sell excellent stock at very low prices.

3. We are an entirely responsible source of supply. Established Fifty Years ago, in 1878, we still have among our customers many who have been patrons for forty years or more. In all our dealings we are always willing to make things right on any errors or just causes for complaint.

4. Our Guarantee—Stock to be in good condition when furnished. We will, however, replace any and all losses at half price.

5. Scarce and rare varieties: Why look through a dozen nursery catalogues for them? Send us your list and we will quote promptly. This Short Guide is necessarily confined to standard varieties, but with our facilities we can furnish almost any variety or size grown in the United States.

6. The policy of this Company is to make and keep good will by careful and prompt service.

PRICES—net, packing at cost. Five will be supplied at the 10 rate, 25 at the 100, and 250 at the 1000 rate.

Claims for errors or shortages to be made within ten days.

KEY TO NOTES

The letters following the name of each variety throughout this Price List refer to the table published herewith. The figures following each name indicate ultimate height at maturity.

A—Profuse bloomer.

B—Flowers very large.

C—Good for cut flowers.

D—Likes a light warm soil.

E—Any good soil.

F—Likes moist ground.

G—Slow growing.

H—Rapid growing.

I—Requires protection first year.

J—Requires sheltered position.

K—Very hardy.

EVERGREENS

THE quality of an evergreen is determined by two things—the shape of the top and the bushiness of the root. In the green list at the back of this book are listed many bargains in evergreens not fully shaped and shipped without a ball of earth about the roots. In the following pages, however, all sizes listed are shapely trees, many times transplanted, balled and burlapped.

Many varieties are omitted and only a few of the available sizes are included. We will be glad to quote special prices on anything commercially grown. We solicit inquiries for prices in quantity.

ARBOR VITAE (Thuya)

AMERICAN ARBOR VITAE (T. Occidentalis)—EHK—15 to 20 feet. Narrow pyramidal tree. Dark green foliage. Excellent as a hedge and special prices on sizes for this purpose listed in back of the book.

	(Each)	(10)	(100)
18 to 24 inches.....	\$2.00	\$17.00	\$130.00
2 to 3 feet.....	3.00	20.00	175.00
3 to 4 feet.....	5.50	30.00	250.00
4 to 5 feet.....	7.00	50.00	375.00
5 to 6 feet.....	60.00	575.00
6 to 7 feet.....	90.00	800.00

COMPACT ARBOR VITAE (T. Compacta)—EHK—4 to 6 feet. Heavy, dense, blue-green foliage.

15 to 18 inches.....	2.50	20.00	145.00
18 to 24 inches.....	3.00	24.00	175.00

HOVEY'S ARBOR VITAE (T. Hoveyi)—EHK—3 to 4 feet. Globe form. Bright green interesting foliage.

12 to 18 inches.....	2.00	16.00	140.00
18 to 24 inches.....	3.00	20.00	195.00

PYRAMIDAL ARBOR VITAE (T. Pyramidalis)—EHK—10 to 15 feet. Light green foliage. Does not grow ragged with age, but keeps its excellent dense form.

12 to 18 inches.....	16.00	145.00
18 to 24 inches.....	2.50	20.00	175.00
2 to 3 feet.....	3.00	25.00	200.00
3 to 4 feet.....	7.00	55.00	450.00
4 to 5 feet.....	8.00	70.00	590.00
5 to 6 feet.....	10.00	90.00

SIBERIAN ARBOR VITAE (T. Warreana)—EHK—10 to 15 feet. Splendidly dense, heavy blue-green foliage.

12 to 18 inches.....	\$16.00	\$145.00
18 to 24 inches.....	\$2.80	25.00	185.00
2 to 3 feet.....	4.00	30.00	245.00

VERVAENE'S ARBOR VITAE—EHK—Dwarf, with fine golden color and dense foliage.

12 to 18 inches.....	16.00	145.00
2 to 2½ feet.....	4.00	30.00	290.00
2½ to 3 feet.....	5.00	40.00
3 to 4 feet.....	6.50	50.00

COMPACT BIOTA

(T. Orientalis compacta)—Persistent fresh green color. Bushy globed shape, and makes an excellent low hedge. We offer specimens for immediate effect

(100)

18 to 24 in.	\$250.00
2 to 3 ft.	275.00
3 to 4 ft.	425.00
4 to 5 ft.	650.00

For taller hedges, with the same unique fresh, live color, we shall be glad to quote prices on Chinese Arbor Vitae. This, however, is not so dense.

JAPANESE CYPRESS (*Retinospora or Chamaecyparis*)

PLUMED JAPANESE CYPRESS
(*Retinospora Plumosa*—EIK—15 feet. A tall pyramid with light green delicate foliage. Quite dense.

	(Each)	(10)	(100)
12 to 15 inches.....			\$ 45.00
18 to 24 inches.....	\$3.00	\$20.00	185.00
2 to 3 feet.....	4.00	30.00	275.00
3 to 4 feet.....	7.50	50.00	350.00
4 to 5 feet.....		75.00	550.00
5 to 6 feet.....		95.00	750.00

GOLDEN PLUMED CYPRESS
(*R. Plumosa aurea*)—Same as the above in every way, except the foliage is bright golden yellow.

18 to 24 inches.....	3.00	20.00	185.00
2 to 3 feet.....	4.00	30.00	275.00
3 to 4 feet.....	8.00	50.00
4 to 5 feet.....		80.00
5 to 6 feet.....		95.00

SAWARA CYPRESS (*R. Pisifera*)—EHK—15 feet. Pyramid shape. Foliage bluish green. Very hardy.

12 to 18 inches.....		12.00	95.00
18 to 24 inches.....	3.00	20.00	175.00
2 to 2½ feet.....	4.00	30.00	275.00
3 to 4 feet.....		37.50	345.00
5 to 6 feet.....		80.00
6 to 8 feet.....		120.00

GOLDEN SAWARA CYPRESS
(*R. Pisifera aurea*)—Same as above, but with gold tipped branches.

	(Each)	(10)	(100)
18 to 24 inches.....		\$25.00	\$200.00
2 to 2½ feet.....		35.00	250.00

THREAD - BRANCHED CYPRESS (*R. Filifera*)—EK—8 to 10 feet. String-like dropping foliage. Good green color. (Golden form of this variety quoted on request.

15 to 18 inches.....			130.00
18 to 24 inches.....	\$4.00	35.00	225.00
2 to 3 feet.....	6.00	50.00

VEITCH'S SILVER CYPRESS
(*R. Squarrosa Veitchii*)—EGLJ—10 to 15 feet. A very dense wide pyramid with beautiful silvery blue foliage, with a feathery soft texture.

18 to 24 inches.....		22.50	200.00
2 to 3 feet.....		28.00	275.00
3 to 4 feet.....		50.00	450.00
4 to 5 feet.....		65.00	590.00
5 to 6 feet.....		90.00	750.00
6 to 7 feet.....		120.00	1000.00

WE are able to offer at exceptionally low prices this season the following scarce and rare varieties. All three are hardy in sheltered positions as far north as Massachusetts. Many other similar varieties gladly quoted on request.

CEDAR OF LEBANON (*Cedrus Libani*)—Large tree, with wide-spreading, horizontal branches Round headed. Its beauty is historic, and the variety is of peculiar interest for its religious associations.

	(Each)	(10)
18 to 24 inches.....		\$30.00
2 to 3 feet.....	\$5.00	35.00
3 to 4 feet.....	6.00	50.00

CRYPTOMERIA LOBBI COMPACTA—15 to 20 ft. Picturesque, narrow and compact column. Rich bronze in winter.

	(Each)	(10)	(100)
18 to 24 inches.....		\$30.00	\$245.00

CUPRESSUS LAWSON'S ALUMI—Thick pyramidal tree, steel blue foliage.

18 to 24 inches.....	\$3.50	30.00
2 to 2½ feet.....	5.00	40.00

THE FIRS (*Abies*)

This species is in appearance very like the Spruces, but the needles are generally longer and the branches are retained close to the ground a greater length of time. For the convenience of our customers we include here the Douglas Fir, properly a separate species (*Pseudotsuga*).

BALSAM FIR (*A. Balsamea*)—
FHK—50 to 60 feet. Noted for the odor of the needles. A fine broad tree, regular and pyramidal.

	(Each)	(10)	(100)
18 to 24 inches.....	\$25.00	\$225.00
2 to 3 feet.....	40.00	375.00

DOUGLAS FIR (*Pseudotsuga*)
—EHK—40 to 50 feet. Compact dense foliage dark green. A superb variety excellent for mass planting.

12 to 15 inches.....	15.00	100.00
18 to 24 inches.....	\$4.00	20.00	175.00
2 to 3 feet.....	5.00	25.00	200.00
3 to 4 feet.....	7.00	60.00	375.00
4 to 5 feet.....	8.00	75.00	650.00
5 to 6 feet.....	12.00	100.00	800.00

SILVER FIR (*A. Concolor*)—
EHK—40 to 50 feet. Dense pyramidal shape, foliage silver to steel blue. Makes a splendid specimen.

12 to 18 inches.....	150.00
18 to 24 inches.....	35.00	295.00
2 to 3 feet.....	8.00	60.00	550.00

VEITCH'S FIR (*A. Veitchii*)—
EHK—50 to 60 feet. Long dark green needles. Narrow pyramidal tree. Soft texture.

18 to 24 inches.....	35.00	295.00
----------------------	-------	-------	--------

HEMLOCK (*Tsuga*)

AMERICAN HEMLOCK (*T. Canadensis*)—FHK—60 to 70 feet. A superb tree that thrives in shade and with drooping spreading foliage. Makes a beautiful hedge and can be easily pruned.

12 to 15 inches.....	15.00	120.00
15 to 18 inches.....	20.00	150.00
18 to 24 inches.....	25.00	180.00
2 to 3 feet.....	5.00	40.00	300.00
3 to 4 feet.....	7.00	60.00	500.00
4 to 5 feet.....	80.00	750.00
5 to 6 feet.....	100.00	950.00

THE JUNIPERS (*Juniperus*)

BLUE CEDAR (*J. Virgin. Glauca*)—EHK—15 to 20 feet. Silver gray foliage—vigorous.

	(Each)	(10)	(100)
18 to 24 inches.....	\$4.50	\$35.00	\$295.00

GROUND JUNIPER (*J. Communis Canadensis*)—EGK—3 to 4 feet. Gray green foliage and spreading to 10 feet or more. Useful to cover banks or rocks.

12 to 18 inches.....	10.00	80.00
18 to 24 inches.....	17.00	160.00
2 to 3 feet.....	25.00

COMMON GOLDEN JUNIPER (*J. Canadensis Aurea*)—EGK—3 to 4 feet. Dwarf, spreading, fine golden color.

12 to 18 inches.....	16.00	150.00
18 to 24 inches.....	22.00	195.00
2 to 3 feet.....	5.00	40.00	325.00

GREEK JUNIPER (*J. Excelsa Stricta*)—EGK—6 to 10 feet. A fine, dense, narrow column of pleasing color and texture.

12 to 15 inches.....	3.00	25.00
15 to 18 inches.....	3.75	29.00
18 to 24 inches.....	5.00	45.00

IRISH JUNIPER (*J. Hibernica*)—EHJ—8 to 10 feet. A dense narrow column with light green foliage.

12 to 15 inches.....	1.00	8.00	70.00
15 to 18 inches.....	1.25	10.00	90.00
18 to 24 inches.....	2.50	16.00	130.00
2 to 3 feet.....	4.00	20.00	175.00
3 to 4 feet.....	6.00	30.00	230.00
4 to 5 feet.....	40.00	350.00
5 to 6 feet.....	50.00	450.00

PFITZER'S JUNIPER (*J. Pfitzeriana*)—EGK—4 to 5 feet. Vase shaped spreading foliage, soft green. Thrives under city conditions.

15 to 18 inches.....	3.50	25.00	175.00
2 to 3 feet.....	6.00	55.00	445.00

PROSTRATE JUNIPER (*J. Sabina Prostrata*)—EHK—18 to 24 inches high—4 to 8 foot spread.

12 to 15 inches.....	1.50	12.00	95.00
15 to 18 inches.....	2.00	18.00	135.00
18 to 24 inches spread.....	2.50	20.00

RED CEDAR (*Juniperus Virginiana*)—EHK—20 to 30 feet. Branches upright. Conical in growth. Foliage dark green.

18 to 24 inches.....	25.00	190.00
2 to 3 feet.....	30.00	270.00
3 to 4 feet.....	45.00	390.00

SWEDISH JUNIPER (*J. Comm. Suecica*)—EHK—7 to 8 feet. Like the Irish, but more bushy in growth.

18 to 24 inches.....	2.50	16.00	150.00
----------------------	------	-------	--------

THE PINES (Pinus)

The Austrian Pine is popular for mass planting, particularly near the seashore. It keeps out the wind and provides a fine background for other ornamental planting. Special sizes for this purpose quoted in the back of this Guide.

AUSTRIAN PINE (Pinus Austriaca)—EHK—40 to 50 feet. The bushiest of the pines and fine for lawn specimen. Thrives near seashore.

	(Each)	(10)	(100)
18 to 24 inches.....	\$20.00	\$200.00	
2 to 3 feet.....	30.00	250.00	
3 to 4 feet.....	53.00		
4 to 5 feet.....	75.00		
5 to 6 feet.....	90.00		

SCOTCH PINE (P. Sylvestris)—EHK—40 to 70 feet. Fast growing. Very hard.

	(Each)	(10)	(100)
18 to 24 inches.....	12.50	95.00	
2 to 3 feet.....	20.00	150.00	
3 to 4 feet.....	30.00	250.00	
4 to 5 feet.....	40.00	350.00	

JAPANESE RED PINE (P. Densiflora) — EHK — 40 to 50 feet. Long bright green needles. Good for seashore planting.

2½ to 3 feet.....	\$5.00	40.00	300.00
3 to 4 feet.....	6.00	50.00	390.00
4 to 5 feet.....	8.00	75.00	

MUGHO PINE (Pinus Mughus)—EGK—6 to 8 feet. Dense, low spreading growth, a fine dwarf evergreen. Pictured above.

	(Each)	(10)	(100)
12 to 15 inches.....	\$3.50	\$30.00	\$195.00
15 to 18 inches.....		35.00	300.00
18 to 24 inches.....		44.00	395.00

RED PINE (P. Resinosa) EHK.

—50 to 60 feet. Red bark, spreading branches. Very hardy and free from disease.

	(Each)	(10)	(100)	(1000)
Lining-out Size				
2 yr. Seedling....			\$2.00	\$10.00
2 to 5 inch X...			3.00	16.00
4 to 8 inch X...			4.00	23.00
6 to 12 inch X...			5.00	30.00

Hedge Grade				
12 to 18 inch X..			12.00	95.00

8 to 9 feet.....	15.00	135.00	1150.00	

THE RED or NORWAY PINE

PERHAPS the one most popular evergreen for all purposes. It is a native to the Eastern parts of the country and absolutely hardy. Its name is taken from the town of Norway, Maine.

In forestry, it makes valuable timber and quick growth on even the poorest of soils. In large quantities we are prepared to quote exceptionally low prices.

This season we have an exceptionally attractive bargain in this variety for mass plantings, screens, etc., where small seedlings or transplants are too small. We offer 25,000 well rooted transplanted Red Pine 12 to 18 inches high at \$95.00 per thousand.

This price is low because the land must be cleared this season. It is impossible to buy such stock for twice the money in the wholesale forestry market.

As a specimen, it grows into a tall, spreading, imposing tree, and is very long lived.

Note. Listed opposite are four grades of Red Pine. We can supply these same grades in almost every variety. The Lining-out and Hedge Grades are priced in the green folder at the back of this Guide, while Landscape and Specimen sizes are priced on these pages.

Sizes not listed will be gladly quoted on request.

THE WHITE SPRUCE (*Picea alba*)

THIS variety makes a shapely pyramidal tree and is one of the quickest growing spruces, being exceeded only slightly by the Norway Spruce. In New England generally it proves more satisfactory than this latter variety and forms a much denser and more perfect specimen.

In Forestry, the variety makes excellent pulp wood and has a ready sale for timber. It thrives in any good soil and is extremely hardy. At maturity this variety reaches a height of from forty to sixty feet and grows straight in form without attention.

The color of the needles is a light frosty green and is unique among large evergreens in this respect. Small trees are excellent as live Christmas Trees, and indeed this variety is commercially grown for the Christmas market. We offer the following grades:

Lining-out Size (see back of book).

Hedge Grade	(Each)	(10)	(100)	(1000)
8 to 14 inches XX.....	\$20.00	\$120.00
12 to 18 inches XX.....	50.00	480.00

**Landscape Grade
(B & B)**

18 to 24 inches.....	\$2.00	\$15.00	130.00
2 to 3 feet.....	2.50	20.00	175.00
3 to 4 feet.....	50.00	395.00
4 to 5 feet.....	65.00	500.00
5 to 6 feet.....	80.00	600.00
6 to 7 feet.....	100.00	750.00
7 to 8 feet.....	120.00	950.00

THE NORWAY SPRUCE (*Picea Excelsa*)

NEXT to Red Pine the most popular evergreen for all purposes in the East. It is thoroughly hardy and subject to few insect pests, and these can be readily controlled. It is the most popular Christmas Tree, and its dark shiny needles make it desirable for this purpose. It grows into a spreading specimen from fifty to seventy feet in height with heavy pendulous branches. The variety thrives in any good soil and is excellent for planting as undergrowth in the shade of other trees. It is the fastest growing Spruce.

A REAL bargain in large transplants for mass or forestry planting this year. Over 200,000 Norway Spruce 9 to 16 inches once transplanted, packing included, at \$25.00 per thousand. We need their room and have priced them extraordinarily low.

Hedge Grade	(Each)	(10)	(100)	(1000)
10 to 12 inches XX.....	\$12.00
12 to 18 inches XX.....	20.00	\$145.00
18 to 24 inches XX.....	30.00	275.00

**Landscape Grade
(B & B)**

15 to 18 inches.....	\$12.00	90.00
18 to 24 inches.....	15.00	120.00
2 to 3 feet.....	\$2.50	20.00	145.00
3 to 4 feet.....	4.00	25.00	195.00
4 to 5 feet.....	50.00	425.00
5 to 6 feet.....	60.00	525.00
6 to 7 feet.....	75.00	675.00
7 to 8 feet.....	95.00	800.00

RARE and UNUSUAL SPRUCES

ALCOCK'S SPRUCE (P. bicolor)—EGK—30 to 50 feet. A broad pyramidal tree. The needles are silver underneath and dark green above.

	(Each)	(10)	(100)
3½ to 4 feet.....	\$8.00
4 to 5 feet.....	9.50

GOLDEN SPRUCE (P. Excelsa aurea) — EGK — Bright yellow branch tips give it a striking appearance. Medium height.

18 to 24 inches.....	4.50	\$35.00	\$295.00
----------------------	------	---------	----------

COLORADO BLUE SPRUCE (P. Pungens glauca)—EGK—50 to 70 feet. Stiff horizontal branches closely set. All plants selected of a good blue color.

12 to 15 inches.....	3.75	28.00	245.00
15 to 18 inches.....	40.00	375.00
18 to 24 inches.....	8.50	60.00	550.00

PICEA INVERSA — EGK — A dwarf form of Weeping Norway Spruce with dense, close-set branches. The leaves are thick and lustrous.

18 to 24 inches.....	5.00	45.00	395.00
----------------------	------	-------	--------

PICEA GLAUCA CONICA — EGK — The dwarfest Spruce known. Very minute, densely set needles. Forms a compact, narrow cone a few feet high.

12 inches.....	5.50	50.00	450.00
14 inches.....	7.00	65.00	595.00
2 feet.....	10.00

KOSTER'S BLUE SPRUCE	(Each)	(10)	(100)
12 to 15 inches.....	\$9.50	\$80.00	\$750.00
15 to 18 inches.....	14.00	120.00	950.00
18 to 24 inches.....	17.50	150.00	1350.00

JAPANESE YEW

THE YEWS (*Taxus*)

THIS species is excellent for foundation planting or rock garden work where there is too much shade for other varieties. It thrives in shade. The Japanese Yew makes an excellent hedge and can be easily sheared into shape. Only two varieties are listed, but we shall be glad to quote prices on other varieties or sizes.

JAPANESE YEW(*T. Cuspidata*)—EGK—10 to 15 feet or more, but very slow growing. Close, spreading and compact.

	(Each)	(10)	(100)
12 to 15 inches.....	\$2.50	\$20.00	\$175.00
15 to 18 inches.....	3.75	33.00	290.00
18 to 24 inches.....	35.00	320.00
2 to 3 feet.....	8.00	70.00

CANADIAN YEW
(*T. Canadensis*) — FGI—3 to 4 feet. A spreading low bush with crimson berries in winter.

	(Each)	(10)	(100)
12 to 15 inches.....	\$3.00	\$22.00	\$175.00
15 to 18 inches.....	3.50	30.00	235.00
18 to 24 inches.....	4.00	32.50	290.00

EVERGREEN HEDGES

EVEN the tall growing varieties can be used for hedges and screens, and most of them will stand shearing, or at least can be kept down by dis-budding. For the tall growing varieties plant three to six feet apart, depending on the size of tree used. In the Spruces, Norway and White are particularly adapted for hedges six feet and up. Scotch and Red Pine are excellent for hedges ten feet and up and have the advantage of very rapid, bushy growth. See pages 4 and 5 for prices.

AUSTRIAN PINE (*Pinus austriaca*) is excellent for seashore planting and seems to thrive in this environment. It will do equally well, however, on any ordinary soil, preferring damp locations. It grows up to thirty or forty feet in height and is rather wide in spread. Planting five to ten feet apart for ultimate effect is recommended, instead of the usual three to six feet for this class of tree. (Page 4 also Back Cover.)

ARBOR VITAE (*Thuja Occidentalis*)—This fine evergreen makes a thick even hedge of five to twenty feet, but is remarkable for two things—it only requires three to four feet of width at the most for a tall hedge and will succeed in soil which has a large amount of lime. It can also be sheared easily and responds in density. Very hardy and will stand severe exposure to winds. Plant two to four feet apart in the row. (Page 1 and Back Cover.)

JAPANESE CYPRESS (*Retinispora*)—The type is similar to the Arbor Vitae in foliage and shape, but the height ranges from five to fifteen feet, to make a fine formal hedge which can be easily sheared. Plant two to four feet apart. (Page 2 and Back Cover.)

HEMLOCK (*Tsuga*)—An excellent hedge of dark green which can be kept in perfect form five to twenty feet in height. Hemlock thrives either in shade or in sunlight, but do not expose to severe wind. Plant the trees two to four feet apart, depending on the size used and height desired. Hemlock grows six inches to a foot per year, but is easily kept down by shearing, which adds to the density of the foliage. (Page 3 and Back Cover.)

YEW (*Taxus*)—Makes a fine low hedge and stands shearing and pruning well. See top of this page, also smaller sizes at the back of this Short Guide.

BARBERRY (*Berberis*)—This is not strictly evergreen, but the bright berries and dense black branches in winter make it as attractive as any evergreen. The Japanese variety, *B. Thunbergii*, is by far the most useful shrub known to commercial horticulture. For a hedge up to four feet in height it is superb. Plant one foot apart for best results. We offer a special hedge size in this variety, 18 to 24 inches high, three years old, transplanted, at \$12.00 per 100 and \$100.00 per 1000. This variety thrives in shade.

RED-LEAVED BARBERRY—A variety of the above with bright red leaves. This must be planted in sunlight to retain its color. Priced on page 12.

Azalea Hinodigiri

ABELIA (A. Grandiflora) (Arbutus Bush)—AEHK—5 feet. White bell-shaped blooms in profusion over a period of about eleven weeks—June to September. Leaves rich bronze in winter.

	(Each)	(10)	(100)
18 to 24 inches.....	\$.60	\$4.00
3 to 4 feet..... <i>Special</i>	.75	6.00	\$50.00

AZALEA AMOENA (Lovely Azalea)—FJA—2 to 3 feet. Similar to next—pink blooms.

50 at 100 rate.			

The Rhododendron Maximum shows its pink clusters in the rear of this planting of Hardy Hybrid varieties

RHODODENDRONS

ONE of our specialties since 1878 has been furnishing native Rhododendrons in carlots. Our distribution point is now not far from New York, so that freight is comparatively inexpensive.

Some of the finest estates in the east have been furnished with Rhododendrons exclusively by this Company and we have been repeatedly commended on the quality of our stock.

RHODODENDRON CAROLINA—FK—8 to 10 feet. Fine native with light to deep pink bloom in June.

	(10)
18 to 24 in. clumps XX.....	\$20.00
2 to 3 ft. clumps XX.....	25.00

RHODODENDRON CATAWBIENSE—FK—6 to 8 feet. More compact than the above—rosy purple bloom in June.

2 to 3 ft. clumps XX.....	30.00
3 to 4 ft. clumps XX.....	45.00

RHODODENDRON MAXIMUM—FK—8 to 10 feet. Rose bloom in June and July. (See special offer on page 9.)

18 to 24 in. clumps XX.....	12.00
2 to 3 ft. clumps XX.....	16.00
3 to 4 ft. clumps XX.....	20.00

MOUNTAIN LAUREL (Kalmia Latifolia)—FK—5 to 8 feet. Shapely bush covered with white to pink bloom in June—attractive buds in May.

18 to 24 in. clumps XX.....	10.00
2 to 3 ft. clumps XX.....	15.00

HARDY HYBRID RHODODENDRONS

The Hybrids are noted for the beauty, richness and large size of their flowers, and their variety of color. For these reasons they add greatly to the attractiveness of any Rhododendron planting.

The plants priced below are well shaped and with flower buds, they are now in the open field and absolutely hardy. They will be dug with a fine ball of fibrous roots for safe transplanting.

AMPHION—Clear pink with white eye, large bloom.

CATAWBIENSE ALBUM—White, fine foliage.

CATAWBIENSE GRANDIFLORUM—Dark rosy lilac.

MRS. C. S. SARGENT—Deep rose shading to red.

ROSEUM ELEGANS—Clear rose, compact grower.

	(Each)	(10)	(100)
12 to 18 inches, B & B.....	\$6.50	\$60.00	\$495.00
18 to 24 inches, B & B.....	9.00	65.00	795.00

Will furnish 50 plants, 10 each of any five of the above varieties, at the 100 rate.

CULTURE OF RHODODENDRONS

AN acid soil is the first requirement. Not just "sour" but acid as well. Given ordinary garden soil, Rhododendrons will succeed provided this acid condition exists, and regardless of sun or shade. To secure acidity there are many methods. A mulch of Oak leaves applied every year and left on is best. Sawdust two or three inches deep, if the sawdust be well rotted, is also excellent, though perhaps unsightly. A layer of upland peat carefully placed over the soil is the natural way of effecting the result. It has also the advantage of being almost immediately efficaceous. We will furnish this material in bags ready to use and gladly quote prices on request.

A splendid planting. Purplish R. Catawbiense and Mountain Laurel (Kalmia) with its pink and white blooms

Special prices on mixed orders, and in quantities larger than the minimum carlots as given below.

NUMBER OF PLANTS TO CAR

12 to 24 inches	200-300
18 to 24 inches	200-300
2 to 3 feet	200-225
3 to 4 feet	160-175
4 to 5 feet	100-150

The above figures are based on a single deck car. We can safely ship 400 to 1000 plants in one car, by double decking or cording.

A FEW WORDS ABOUT OUR STOCK

X GRADE—Plants for mass planting, not as bushy as the XX grade.

XX GRADE—Selected bushy plants, well branched and leaved, breadth about equal to height, and having from 6 to 20 branches depending on size ordered.

All plants will be dug with large balls of roots and earth, and carefully packed in car.

We are confident you would be well pleased with the quality of our stock which we are offering at better prices than ever before.

LIVING GROUND COVERS KEEP SOIL ACID

See Page 14.

The above is an 18 to 24 inch hardy hybrid Rhododendron photographed one month after planting. While all our Rhododendrons are not so heavily budded they will average as bushy as the specimen pictured above and will all have some flower buds ready to bloom this Spring.

SHADE trees are now so scarce and in such demand that it is impossible to make a list in advance of the selling season that will hold good all Spring. For this reason, although we have available almost every variety and size at the time of preparing this Guide, we are only listing such varieties and sizes as we have in very large quantity. OAKS and LINDENS, for instance, are entirely omitted, although we shall be glad to quote prices on many sizes which we have available now in good quantity.

With our country-wide selection we are in an excellent position to furnish in carlots for city street planting. Last season we furnished planting material for more than thirty city Park Departments all over the country, in strict competition as to price and quality. Write us for very special quotations in quantity.

ELM (Ulmus)

AMERICAN ELM (U. Americana) —EHK—60 to 80 feet. Easily the finest native tree, for street or park.			
	(Each)	(10)	(100)
6 to 8 feet.....	\$2.00	\$15.00	\$ 70.00
8 to 10 feet (1¼ inches).....	3.00	20.00	140.00

1¼ to 1½ inches.....		25.00	175.00
1½ to 1¾ inches.....			200.00

LOMBARDY POPLAR (P. Fastigiata) — EHK — 40 to 50 feet. Narrow, compact and picturesque. Of extremely rapid growth.			
8 to 10 feet.....	1.50	6.00	50.00
10 to 12 feet.....	1.75	8.00	75.00
Other sizes on request.			

FLOWERING DOGWOOD (Cornus)

SPRING would lose much of its beauty were it not for this species. The large showy flowers in massed effect make a sight never to be forgotten.

Note that we can furnish small sizes as well as large. This is true of all other varieties on these pages. They are listed and priced in the green folder pasted in the back of the Guide, under the heading "Deciduous Trees." Small sizes of these beautiful flowering trees can be used to obtain a massed effect at low cost, but which in a few years will make as effective a planting as the larger sizes for more immediate effect.

WHITE FLOWERING DOGWOOD (C. Florida) — DIJ — 20 feet. Covered with white blooms in May. Crimson leaves and berries in Autumn.				
Lining-out Size	(Each)	(10)	(100)	(1000)
6 to 12 inches.....			\$ 6.50	\$50.00
12 to 18 inches.....			9.00	70.00
Landscape Grade

RED FLOWERING DOGWOOD —Same as above with Pink Blooms. (Photo.)				
12 to 15 inches.....		20.00	150.00	
18 to 24 inches.....	3.50	30.00	250.00	
2 to 3 feet.....	5 00	40.00	300.00	
3 to 4 feet.....	7.50	65.00	550.00	

BLOOD-LEAF JAPANESE MAPLE

This dwarf tree makes a superb lawn specimen or for mixing in the shrub border, where its brilliant coloring makes a striking effect. We offer only true grafted trees.

	(Each)	(10)	(100)
10 to 12 inches.....	\$25.00	\$200.00	
12 to 18 inches.....	\$3.50	30.00	250.00

FLOWERING CRABS (*Malus*)

THESE superb trees are effective for lawn specimens, but even more important when used plentifully in woodland and mass plantings, in the same way as Dogwood and Hawthorne.

There is a wide range of size and shape and color of bloom and the following list includes only a few of those we are in a position to furnish. The quantity prices are real bargains.

ATROSANGUINEA —Carmine Crab			
	(Each)	(10)	(100)
2 to 3 feet.....	\$1.25	\$ 8.00	
3 to 4 feet.....	2.00	12.00	\$100.00
ANGUSTIFOLIA —Rosy Red			
2 to 3 feet.....	1.25	11.00	
3 to 4 feet.....	1.50	14.00	
4 to 5 feet.....	2.00	18.00	
BECHTEL'S CRAB — Double, pink.			
2 to 3 feet.....	1.50	7.50	60.00
3 to 4 feet.....	2.00	10.00	80.00
FLORIBUNDA — Single, rose-pink.			
3 to 4 feet.....	1.50	10.00	
4 to 5 feet.....	2.00	12.00	100.00
NEIDZWETZKYANA —Redvein Crab. Entirely red—flowers, branches, leaves, and fruit.			
3 to 4 feet.....	1.50	10.00	80.00
4 to 5 feet.....	2.00	12.00	100.00
5 to 6 feet.....	2.50	15.00	130.00
PARKMAN'S CRAB — Double rosy-red flowers.			
3 to 4 feet.....	2.00	12.00	100.00
SCHIEDECKERI —Early in bloom. Rosy-pink.			
3 to 4 feet.....	1.50	12.00	
4 to 5 feet.....	2.00	15.00	

HAWTHORNE (*Crataegus*)

SPLENDID for mass plantings or, when used as hedges, their showy masses of bloom give an added note of interest. We offer budded forms of the English Hawthorne, which grows 10 to 15 feet in height. Perfectly hardy.

DOUBLE WHITE (<i>C. Oxycantha</i> <i>flora plena</i>).			
	(10)	(100)	
3 to 4 feet.....	\$12.00	\$100.00	
DOUBLE PINK.			
2 to 3 feet.....	10.00	80.00	

JAPANESE FLOWERING CHERRIES

THESE are among the very first things to bloom in the Spring and extremely choice and scarce. We have several other varieties available in limited quantities. A small tree, entirely hardy. Never before offered at such prices.

JAPANESE WEEPING CHERRY

	(Each)	(10)	(100)
—Pink blossom.			
3 to 4 feet.....	\$4.50	\$40.00	
4 to 5 feet.....	5.50	50.00	
5 to 6 feet.....	8.00	75.00	
6 to 7 feet.....	10.00	95.00	

NAMED JAPANESE VARIETIES

—as listed below.

3 to 4 feet.....	25.00	\$195.00
4 to 5 feet.....	30.00	245.00
5 to 6 feet.....	35.00	295.00

BENI-HIGAN—Large pink flowers. 3-4, 4-5 and 5-6 ft.

DOUBLE WHITE FLOWERING (*Avium fl. pl.*) 5-6 ft.

FUGENZE (J. H. Veitch)—Double pink. Late. 3-4 ft.

JAGATSU-ZAKURA—Light pink. Semi-double. Early. 3-4 and 4-5 ft.

KWANZAN—Double. Dark pink. Late. 3-4 ft.

SUBHIRTELLA (Rosebud)—Single. Light pink. Early. 3-4 and 4-5 ft.

YEODENSIS—Single, pink-white flowers. Very fast growing. 3-4, 4-5 and 5 to 6 ft.

RIVER'S PURPLE BEECH

(*F. Riversii*)—EG1—50 to 60 ft. A beautiful tree holding its color throughout the Summer. (See illustration in natural color).

	(Each)	(10)	(100)
18 to 24 inches.....		\$30.00	\$250.00
12 to 14 feet specimens....	30.00	250.00	
14 to 16 feet specimens....	40.00	350.00	

(We have trucking and balling facilities near New York City, if required.)

WEIGELIA ROSEA

(See bottom next page)

AZALEAS

AZALEA MOLLIS (Lovely Azalea)—FGK—May. Ranges from light pink to rich yellow and red.

	(Each)	(10)
9 to 12 inches B & B.	\$1.50	\$12.00
12 to 15 inches B & B.	1.80	15.00
15 to 18 inches B & B.	2.80	25.00

AZALEA ARBORESCENS — Large white bloom in July, fragrant.

18 to 24 inches B & B.	1.60	14.00
2 to 3 feet B & B.	2.50	22.00

A. CALENDULACEA—Flame colored in June.

18 to 24 inches B & B.	1.60	14.00
2 to 3 feet B & B.	2.50	22.00

A. CANESCENS (Rosea)—Similar to Vaseyi.

12 to 14 inch clumps.	1.50	10.00
----------------------------	------	-------

A. NUDIFLORA (Pinkster)—Deep pink in May.

18 to 30 inch clumps.	1.50	10.00
----------------------------	------	-------

A. VASEYI (Pinkshell)—Flowers profusely before the leaves appear, exquisite pink or rose.

18 to 24 inches B & B.	1.60	14.00
2 to 3 feet B & B.	2.50	22.00

A. VISCOSA (Swamp Azalea)—Early fragrant white.

18 to 24 inches.	1.60	14.00
2 to 3 feet B & B.	2.50	22.00

Special prices on 50 or more plants of one variety.

THE LIST ABOVE includes deciduous varieties. For Evergreen Azaleas see page 7. This species is representative of some of the finest color of bloom and delicacy of foliage. They do best in woods earth and partial shade with ample moisture. The deciduous native varieties have an ultimate height of about 6 feet. In carlots we can offer very special prices.

RED LEAF BARBERRY (B. Thunbergii atropurpurea)—Leaves are purplish red all Summer, a unique note in the foliage scheme. New.

	(Each)	(10)	(100)
12 to 15 inches.	\$6.50	\$60.00
9 to 12 inches.	5.00	40.00

KOLKWITZIA AMABILIS (Beauty Bush)—New and very rare. Slim drooping branches. Abelia-like pink flowers in clusters along whole length of branches.

9 to 12 inches.	\$2.00	18.00	160.00
12 to 18 inches.	3.25	30.00	250.00

PHILADELPHUS VIRGINAL (Double Syringa)—Blooms nearly all summer, white, fragrant, double flowers. New.

18 to 24 inches.	5.00	45.00
2 to 3 feet.	6.00	55.00

MAYFLOWERED VIBURNUM (V. Carlesii) — Medium shrub with very fragrant clear pink blooms in May. Rare.

12 to 15 inches.	22.00	175.00
18 to 24 inches.	4.00	35.00	250.00
2 to 3 feet.	5.00	45.00	350.00

NEW FRENCH LILACS

MRS. EDWARD HARDING — Double, bright carmine, big panicles, large flowers.

18 to 24 inches.	2.50	20.00
-----------------------	------	-------	------

JAN VAN TOL — Single pure white. Large trusses, profuse bloomer.

18 to 24 inches.	2.00	15.00
-----------------------	------	-------	------

KATHERINE HAVEMEYER — Double, cobalt blue, enormous flower, perfect shape.

18 to 24 inches.	2.50	20.00
-----------------------	------	-------	------

We also have a fine list of other New French Varieties, on which we will gladly quote prices.

STRIKING color effects throughout the Summer can be arranged readily by consulting the table on the next page.

A Spray of Lilac

Buddleia Magnifica	Lilac	July to frost	5-6 ft.	DHJ—Attracts butterflies	17.00	25.00	35.00
CALYCANTHUS FLORIDUS (Sweet Shrub)							
	Red-brown	June to Sept.	4-5 ft.	EHK—Fragrant blooms all summer	20.00		
DEUTZIA (Deutzia)							
D. Crenata flora plena	Rose	June	6 ft.	EHJ—Shelter in winter		35.00	40.00
D. Pride of Rochester	White	June	6-8 ft.	EHJK—Very vigorous		30.00	40.00
D. Candidissima	White	June	6-8 ft.	AEHJ—Double flowers		25.00	36.00
D. Lemoinei	White	June	3-4 ft.	BEHK—Extra large flowers		40.00	60.00
DOGWOOD (Cornus)							
C. Stolonifera (Red Dogwood)	White	June	6 ft.	FHK—Effective in winter	15.00	20.00	40.00
C. Siberica (Red Osier)	Cream	June	8 ft.	FHK—Good in wet places		32.00	40.00
C. Amomum (Sikyl Dogwood)	White	June	8 ft.	FHK—Moist places		20.00	30.00
EUONYMUS							
E. Alatus (Winged Burning Bush)	Yellow and Red	June	6 ft.	EGK—Beautiful crimson foliage in fall	80.00		
FORSYTHIA (Forsythia)							
Intermedia (Golden Bell)	Yellow	April	8 ft.	AEHK—Branches gracefully arched	15.00	21.00	
F. Fortunei	Yellow	April	8 ft.	EHK—Bell shaped flowers	15.00	21.00	45.00
F. Suspensa	Yellow	April	8 ft.	AEHK—Branches gracefully arched		50.00	
F. Viridissima	Yellow	April	8 ft.	EHK—Branches more erect	16.00	24.00	40.00
HONEYSUCKLE (Lonicera)							
L. Fragrantissima	Pink	April to May	6 ft.	EIJ—Almost evergreen	30.00	40.00	
L. Tatarica rubra	Red	May and June	6-8 ft.	BEHK—Red variety	20.00	25.00	
L. Morrowi	White	May and June	6 ft.	AEHK—Upright, dense growth	20.00	30.00	40.00
LILAC (Syringa)							
S. Vulgaris	Purple	May	8-10 ft.	EHK—Prune in early June	15.00	20.00	30.00
S. Vulgaris Alba	White	May	8-10 ft.	(White form of above)	50.00	70.00	90.00
Lilac Hybrids (Named varieties)	Various	May	6-8 ft.	EHK—All colors but yellow	60.00		
HYDRANGEA (Hydrangea)							
H. Paniculata Grandiflora	White	Sept. and Oct.	7 ft.	BEK—Popular garden favorite	40.00	45.00	50.00
H. Aborescens Grandiflora	White	June to Aug.	7 ft.	ABEK—Hills of Snow		50.00	
QUINCE (Cydonia)							
C. Japonica (Japan Quince)	Scarlet	May	6-8 ft.	EK—Heavy bloomer	40.00	60.00	
SNOWBERRY (Symphoricarpos)							
S. Vulgaris (Coral Berry)	Pink	July	4 ft.	EHK—Currant-like fruit, red	18.00		
S. Racemosus (Snowberry)	Pink	July	4-6 ft.	EHK—Waxy-white berries	20.00	30.00	
SPIRAEA (Spiraea)							
S. Anthony Waterer	Crimson	July and Aug.	2-3 ft.	AEK—Cut faded blooms		40.00	
S. Douglassi	Pink	July	6-8 ft.	EHK—Blossoms in dense panicles		30.00	
S. Van Houttei	White	May and June	6 ft.	EHK—The favorite Spiraea	15.00	20.00	30.00
S. Billardi	White	July and Aug.	5-6 ft.	EHK—Good for hills or dry places	15.00	20.00	25.00
STEPHANANDRA (Lace Shrub)							
S. Flexuosa	White	July	3-4 ft.	EHIJ—A fine low shrub with dense, deep green foliage	30.00	40.00	50.00
SYRINGA (Philadelphus)							
P. Coronarius (Mock Orange)	White	May to June	8 ft.	EHK—Attractive foliage		20.00	30.00
P. Grandiflora	White	May to June	8 ft.	BEHK—Double flowers		30.00	
P. Lemoine	White	June	4 ft.	EHK—Excellent dwarf shrub		30.00	
VIBURNUM							
V. Opulus (Bush Cranberry)	White	May and June	8 ft.	EHK—Fruit edible		70.00	80.00
V. Op. Sterlis (Common Snowball)	White	May and June	6-8 ft.	AEGK—Old garden favorite	50.00	70.00	
V. Tomentosum	White	June	8 ft.	EHK—Upright in growth		70.00	90.00
V. Dentatum	White	May and June	10-12 ft.	EHK—Good in wet soil	20.00		
WEIGELIA (Diervilla)							
Weigelia Rosea	Pink	June	6 ft.	ADHJ—Good foliage	20.00	40.00	50.00
W. Candida	White	June and July	8 ft.	ADHJ—Large showy flowers		50.00	60.00
W. Eva Rathke	Crimson	June and July	5 ft.	ADHJ—Very fragrant flowers	40.00	50.00	
W. Amabilis	Pink	June	6 ft.	ADHJ—Fine foliage		30.00	40.00

25 of one variety at the 100 rate (see Green List for lining-out sizes). We will be glad to quote on any varieties that you may want that are not listed above.

Hall's Honeysuckle Vine

VINES

AMPELOPSIS QUINQUEFOLIA (Virginia Creeper) —Quick grower, rich fiery Autumn coloring, 30 to 50 feet.	(10)	(100)
	2 year strong plants.....	\$4.00 \$25.00
1 year transplants (\$100.00 per thousand)	15.00
AMPELOPSISTRICUSPIDATAVEITCHII (Boston Ivy) —Self-clinging, brilliant autumn color, blue-black berries, 40 to 50 feet.		
	2 year field-grown.....	3.00 25.00
CELASTRUS SCANDENS (American Bittersweet) —Very hardy vine with orange-red berries, lasting through winter, 20 to 25 feet.		
	2 year strong plants.....	4.00 30.00
1 year seedlings (\$50.00 per thousand)...	15.00
EUONYMUS RADICANS (Wintercreeper) —Evergreen self-clinging vine, excellent for walk, under planting 15 to 20 feet.		
	2 year bushy plants.....	4.00 30.00
1 year plants.....	2.00	16.00
HEDERA HELIX (English Ivy) —Evergreen, very hardy, excellent for shady and exposed positions where it thrives best. Small leaved varieties not as rapid a grower as large leaved, 25 to 50 feet.		
	Small leaved. Strong plants from 2¼ pots	3.00 25.00
Large leaved. Strong plants from 2¼ pots	2.50	20.00
LONICERA JAPONICA HALLIANA (Hall's Jap. Honeysuckle) —Semi-evergreen, very fragrant, quick growing and very hardy, 15 to 20 feet. Excellent cover for walls and fences.		
	2 year strong plants.....	4.00 30.00
Small plants field grown.....	2.50	20.00
1 year transplants (\$100.00 per thousand)	15.00
LONICERA SEMPERVIRENS (Scarlet Trumpet) —Quick grower, scarlet flowers, July-September, 15 to 20 feet.		
	2 year strong plants.....	5.00 45.00
1 year transplants (\$80.00 per thousand)	15.00
VINCA MINOR (Myrtle) — Trailing evergreen plant good in partial shade. Blue flowers in May.		
	Strong clumps (\$65.00 per thousand).... 8.00

PLANT THESE UNDER RHODODENDRONS

They will add to the beauty of the planting by covering bare spots and help keep the soil in the necessary acid condition

OCONEE BELLS (Shortia galicifolia) — Evergreen. White bell-shaped flowers in early spring.	(100)	(1000)
	Medium size transplants.....	\$18.00 \$160.00
GALAX (Galax aphylla) —Beautiful heart-shaped leaves turning scarlet when exposed to sun.		
	Strong clumps.....	12.00 100.00
JAPANESE SPURGE (Pachysandra terminalis) —Very hardy, low growing plant, will grow in shade where other plants die.		
	Selected Plants.....	14.00 90.00

ROSES

WE have ready to be mailed to all who request it, a list of one hundred Roses of all types. In this Guide we are offering just a few sorts. Our prices on Hybrid Teas range from 65 to 95 cents for two-year field grown plants. Other types in proportion. Price depends on quantity ordered. May we send you a copy of this price list?

SPECIAL ROSE OFFER

One dozen selected Roses, two years old, field grown, Number One Plants. This offer is made for one rose each of the following twelve varieties, all of them thoroughly tried and proved. We cannot substitute varieties in this offer at the special postpaid price of \$6.00

Gruss an Teplitz	Crimson
J. L. Mock	Carmine-pink
Pink Radiance	Rose-pink
Los Angeles	Salmon pink
Columbia	Bright pink
Sunburst	Orange-yellow
Frau Karl Druschki	White
K. A. Victoria	White
Luxemburg	Golden Buff
Lady Hillington	Yellow
Red Radiance	Crimson
Mme. J. Guillemot	Light pink

CLIMBING ROSES

FOR massed effect of blooms of many colors and shapes there is no substitute for a fence or wall thick with climbing Roses. They are easy of culture and the varieties listed below are entirely hardy. We offer 2-year-old field grown Number 1 plants at \$6.00 per ten and \$50.00 per 100; also a one-year size in 2½ inch pots at \$13.00 per 100 and \$120.00 per 1000. We recommend the following varieties:

DR. VAN FLEET—The best climbing rose, by consensus of all competent opinion. Large double flowers, flesh pink, as shapely as many bush roses and produced freely. Fragrant.

SILVER MOON—Large flat blooms of clear silvery white. Also fragrant. The foliage on this variety and the Van Fleet above is not subject to mildew, but remains attractive even in partial shade.

PAUL'S SCARLET CLIMBER—Vivid scarlet, semi-double flowers which do not fade even in strong sunlight. A profuse bloomer and very hardy.

The above three varieties are without question the three best climbers. A combination planting is a source of never-failing satisfaction.

CLIMBING AMERICAN BEAUTY—Slightly fragrant, large, carmine blooms in profusion. Will succeed in almost any situation and after becoming established is a vigorous grower.

CRIMSON RAMBLER—An old favorite, producing masses of crimson flowers. It must be planted in partial shade or the flowers quickly fade.

DOROTHY PERKINS—Cherry-pink, slightly fragrant flowers thickly borne and remaining for a long time. Foliage is very persistent and attractive. A strong grower.

TAUSENDSCHON—A distinctive rose. The buds are pink and in opening fade to white. Flowers very double and foliage disease-resistant.

PERENNIALS

WE can furnish a complete list of hardy perennials. We are listing in this Guide, however, only a few of the Chrysanthemums, for the reason that they bloom at a time when everything else in the garden is through for the season, and thus add another month of color to the blooming period. The following Chrysanthemums are all of the Pompom type, absolutely hardy. We offer strong plants from 2¼ and 2½ inch pots at \$2.00 per dozen and \$12.00 per 100 of each variety.

SINGLE LARGE-FLOWERING

GOLDEN CLIMAX—Rich golden yellow with handsome foliage.

MRS. CLIFFORD BINGHAM—Beautiful, bright, rich red, golden center, borne on long stems. Foliage rich deep green. Early and excellent for cutting.

MRS. W. E. BUCKINGHAM—Extra large; flat; rosy pink.

DOUBLE LARGE-FLOWERING

ADELAIDE—A splendid deep, rich mahogany; one of the earliest to develop, being ready to cut by October 10.

ANNAL MORAN—Midseason. Flowers a brilliant, flame-scarlet, on the order of the Doty type.

HARVEST HOME—Blood-red, overlaid with gold.

LILLIAN DOTY—Finest pink. Pompom; vigorous grower.

MR. RUX—Compact burnt-orange with rose tinted center. Tall and bushy; early and fine for cutting.

RED DOTY—Wine-red with a silvery reverse on underside of petals and showing up distinctly in the short, crisp center petals.

UVALDA—Early. Pure white; double.

WHITE DOTY—White Lillian Doty. Very vigorous.

SMALL BUTTON-SHAPED

BROWN BETTY—Dark maroon-red.

DIANA—Pure white; bright green foliage.

DONALD—Delicate light pink. Large, sturdy grower.

KLONDIKE—Brilliant yellow, compact blooms.

LINING-OUT GRADE

The inside pages of the folder pasted in the back cover opposite contain our up-to-date list of seedlings and small transplanted sizes of evergreens, evergreen shrubs, deciduous trees and deciduous shrubs. These are ideal for lining-out in nurseries or in gardens and will grow into specimen trees if properly taken care of. The value will then be many times the present cost and whether the trees are used for re-sale to others or to be placed on your own estate, it is the most economical way of securing planting material.

There is nothing difficult about growing the sizes we offer for sale and the list of books printed on the back cover contain all the information required for even the difficult sizes and varieties.

FORESTRY

The prices quoted here are per thousand and where large quantities are required as for reforestation we are in a position to make very special prices considerably below those listed. The normal forestry varieties and in particular the evergreens are practically all grown in northern New England and are extremely hardy and resistant to adverse conditions when planted out in more southern parts of the country.

For special soil conditions we would recommend the following varieties:

LIGHT SAND

Scotch Pine (Pinus)
Black Locust (Robinia)
Carolina Poplar (Populus)

SANDY LOAM

Red Pine (Pinus)
Black Locust (Robinia)
Carolina Poplar (Populus)
European Larch (Larix)
Arbor Vitae (Thuja Occ.)
Douglas Fir (Pseudotsuga)

GOOD SOIL

White Pine (Pinus)
Norway Spruce (Picea)
White Ash (Fraxinus)
European Larch (Larix)

COARSE GRAVEL

Red Pine (Pinus)
Black Locust (Robinia)

LOAM

White Pine (Pinus)
Norway Spruce (Picea)
White Ash (Fraxinus)
Carolina Poplar (Populus)
European Larch (Larix)
Arbor Vitae (Thuja)

WET LAND

Balsam Fir (Abies)
Arbor Vitae (Thuja Occidentalis)
Carolina Poplar (Populus)

CHRISTMAS TREE GROWING

This is particularly profitable in connection with a forest planting for pulp. Plant 3 x 3 feet—about 4,850 trees to the acre. At the end of approximately ten years take out every other tree for sale as Christmas trees, and leaving your planting 6 x 6 feet—the best distance for good timber growth. The best Christmas tree varieties are White and Norway Spruce and Douglas and Balsam Fir. These varieties are mature for Christmas tree cutting in 7 to 10 years from a 3-year-old transplant.

Two photographs taken 25 years apart

TREES AND SHRUBS FOR BIRD FOOD

The following list of hardy fruit-bearing shrubs for food for birds will be found convenient for ready reference. It embraces the best varieties that can now be furnished in quantity. The numbers following the bird names refer to the numbered plants as below. Prices are listed in the green folder. 

GAME BIRDS

Grouse: 2-5-6-7-8-11-12-15-16-20-21-22-26-27.
Partridge: 6-7-11-12-26.
Pheasant: 11-12-21-26.
Prairie Chicken: 8-20.
Quail: 2-5-6-7-11-12-15-17-19-22.
Snipe: 2-6-7-11-12-21-22-26-27.
Wild Geese: 4-5-11-12-13-24-27.
Woodcock: 5-6-7-17-19-26-27.

SONG AND PLUMAGE BIRDS

Blackbird: 5-6-7-15-19-22.
Bluebird: 4-5-6-7-8-11-12-15-17-19-21-22-24-26-27.
Bobolink: 15-17-21-27.
Cardinal: 4-6-7-15-21-27.
Chickadee: 6-7-19-21.
Cuckoo: 15-21-27.
Finch: 6-7-21.
Flicker: 4-6-7-11-12-16-17-19-21-22-27.
Kingbird: 2-6-7-15-17-18-19-21-22-26-27.
Lark: 1-2-5-6-7-15-17-21-26-27.
Meadowlark: 1-26-27.
Mockingbird: 3-4-11-12-15-17-18-19-21-22-27.
Oriole: 15-17-21-22.
Starling: 6-7-13-15-16-17-19-21-22-26-27.
Swallow: 6-7-19.
Tanager: 15-17.
Thrush: 6-7-11-12-15-17-18-19-21-26.
Waxwing: 4-6-7-8-11-12-13-15-17-21-24-26.

Warbler: 13-19-21-26.

Woodpecker: 6-7-11-12-15-17-19-21-22-26-27.

Wren: 2-9-19-21-22.

TREES AND SHRUBS

- 1 Aronia arbutifolia
- 2 Berberis Thunbergi
- 3 Callicarpia (French Mulberry)
- 4 Celtis (Hackberry)
- 5 Cephalanthus (Button Bush)
- 6 Cornus Stolonifera
- 7 Cornus Florida
- 8 Eleagnus (Silverberry)
- 9 Euonymus Americana
- 10 Gaylussacia (Huckleberry)
- 11 Ilex Opaca (Holly)
- 12 Ilex Verticillata
- 13 Juniperus Virginiana (Red Cedar)
- 14 Lonicera (Honeysuckle) (bush) (vine)
- 15 Morus (Mulberry)
- 16 Nyssa Multiflora
- 17 Prunus (Choke Cherry)
- 18 Rhamnus Cathartica (Buckthorn)
- 19 Rhus (Sumac) (in variety)
- 20 Rosa (Rose) Lucida and Nitida
- 21 Rubus (Raspberry)
- 22 Sambucus (Elderberry)
- 23 Sassafras Officinale
- 24 Thuja American (Arbor Vitae)
- 25 Symphoricarpos Vulgaris (Snowberry)
- 26 Viburnum prunifolium
- 27 Vitis (Wild Grape)

FINAL BULLETIN OF FORESTRY AND LINING OUT STOCK

SPRING 1929

ORDER now to avoid disappointment later. Our stocks are plentiful at this time and we are making special prices in the following lists. Many varieties we carry in quantities of more than a hundred thousand of each size and are always glad to quote special prices on definite lists. The lists of varieties are, of course, incomplete and we shall be glad to quote anything which does not appear in this folder. Our stock comprises practically every variety that is commercially grown.

PRICES:—Net, packing at cost. Orders for 250 at thousand rate and 50 at hundred rate. Prices subject to change without notice. No order for small seedlings less than 100.

TERMS:—Any claims for errors or shortages to be rendered within ten days after receipt of stock. Half cash in advance, or acceptable references.

N. B.—Many items omitted in this list. We will gladly quote on request.

MASS PLANTING BARGAINS

It is not necessary to use specimen grades for mass planting, screens, hedges, etc. We have a special grade for this purpose in fine Nursery grown Evergreens—perfectly healthy and hardy and all twice or more times transplanted. These trees have good fibrous roots and are shipped without ball of earth, carefully packed in wet moss, unless otherwise requested.

Each "X" means one transplanting.

EVERGREEN TREE SEEDLINGS AND TRANSPLANTS

"X" Indicates each transplanting.
 "S" Indicates Seedlings not transplanted.

ABIES (Fir)

Balsamea (Balsam Fir)

Its characteristic clean odor and stately appearance make this a desirable variety even without its well known value as timber. Ideal evergreen for wet land. Poplar variety for Christmas trees.

	(100)	(1000)
3 year X	4.00	24.00

----------------	-------	--------

LARIX (Larch)

europaea (European Larch)

A tall, straight grower, very different from the native Larch (or Hackmatack). It requires a deep, fairly porous and moderately fresh soil. It is a rapid grower but needs sunlight. Best used in combination with other varieties.

European

4 to 6 in. S	3.00	20.00

12 to 18 in. S	3.00	20.00
----------------	------	-------

PICEA (Spruce)

alba (White Spruce)

Most suitable for paper pulp and succeeds wherever Norway Spruce succeeds. It is a trifle quicker in growth. Popular variety for Christmas trees.

---------	------	-------

3 yr. X 2 to 3 in.	5.00	35.00
--------------------	------	-------

excelsa (Norway Spruce)

This variety is planted in preference to other spruces for two reasons: It will thrive when set out in dense shade and succeeds in heavy damp soil. Having a flat root system, it is suitable for shallow, rocky soils. Popular variety for Christmas trees.

2 yr. S	\$ 2.00	\$ 9.00

From Our Customers

It is impossible to list even the names of the thousands of Park Departments, public institutions, private estates, and individuals that we serve. We print here-with a few from the many who have been kind enough to write us during the past year.

We furnished last spring 325,000 small evergreens for reforesting the lands surrounding the reservoir at Wanaque, N. J., Chas. Welford Leavitt & Son, Landscape Architects, upon inspecting the planting in July last, wrote: "The inspection showed that the trees are growing unusually well and that no dead trees were found. This should be very gratifying to you, for it shows that the stock purchased was vigorous and healthy. . . ."

Thanks for your letter. The evergreen seedlings purchased from you last year are making excellent progress.

Union County Park Commission,
Elizabeth, N. J.

We are glad to state that the nursery stock we received from you last Fall was very good quality and satisfactory in every way. Will remember your firm when in need of more.

Riverside Cemetery Association,
Rochester, N. Y.

The carload of Rhododendrons have all been very successful.

Mrs. M. C. Hill,
Oyster Bay, L. I.

We will not need any more trees this year. Last year's trees are progressing favorably.

H. I. Schmidt,
York, Pa.

The Roses and Daphne arrived in fine condition and look like good plants.

Mrs. Frederick Cate,
Salem, Mass.

It gives me great pleasure to say that the little evergreens are all doing finely and we are delighted with them. You may be sure we shall apply to you when we need more.

Mrs. C. M. Dunham,
Waltham, Mass.

My Rhododendrons purchased from you are the best of the very few grown in this vicinity.

W. M. Fay,
Proctor, Vt

From Our Customers

It is impossible to list even the names of the thousands of Park Departments, public institutions, private estates, and individuals that we serve. We print here-with a few from the many who have been kind enough to write us during the past year.

We furnished last spring 325,000 small evergreens for reforesting the lands surrounding the reservoir at Wanaque, N. J., Chas. Welford Leavitt & Son, Landscape Architects, upon inspecting the planting in July last, wrote: "The inspection showed that the trees are growing unusually well and that no dead trees were found. This should be very gratifying to you, for it shows that the stock purchased was vigorous and healthy. . . ."

Thanks for your letter. The evergreen seedlings purchased from you last year are making excellent progress.

Union County Park Commission,
Elizabeth, N. J.

We are glad to state that the nursery stock we received from you last Fall was very good quality and satisfactory in every way. Will remember your firm when in need of more.

Riverside Cemetery Association,
Rochester, N. Y.

The carload of Rhododendrons have all been very successful.

Mrs. M. C. Hill,
Oyster Bay, L. I.

We will not need any more trees this year. Last year's trees are progressing favorably.

H. I. Schmidt,
York, Pa.

The Roses and Daphne arrived in fine condition and look like good plants.

Mrs. Frederick Cate,
Salem, Mass.

It gives me great pleasure to say that the little evergreens are all doing finely and we are delighted with them. You may be sure we shall apply to you when we need more.

Mrs. C. M. Dunham,
Waltham, Mass.

My Rhododendrons purchased from you are the best of the very few grown in this vicinity.

W. M. Fay,
Proctor, Vt

A List of Recommended Books

We consider the following books to best cover their respective subjects. Prices quoted include postage. We will gladly execute your orders direct, at publisher's prices:-

STANDARDIZED PLANT NAMES

By American Joint Committee on Horticultural Nomenclature. An index of 45,000 plant names giving the scientific and common names approved by authorities. Does not give pronunciation or culture. 548 pages, 5¼ x 8, 1923. Cloth, \$6.00, postpaid.

A LITTLE BOOK OF PERENNIALS

By Alfred C. Hottes. Gives complete information on perennials with their culture, habits, uses, propagation, height, flowering period, diseases, fertilizers, etc. 200 pages, 5 x 7½, 75 halftones, 14 sketches. 1927. Paper \$1.10, Cloth \$1.65.

THE BOOK OF SHRUBS

By Alfred C. Hottes. Gives comparison of species, characteristics, uses, soil, pruning, propagation, height in feet, exposure to plant, color of flowers, season of bloom, color of fruit, etc. Gives list of different shrubs for different purposes. 371 pages, 7 x 7½, 124 halftones, 56 sketches, 44 tables. 1928. Cloth, \$3.15.

GARDEN GUIDE

Each subject written by an authority. Edited by A. T. De La Mare. Exceptionally complete and reliable. Nearly 400 pages with over 275 illustrations. Paper, \$1.10, Cloth, \$1.65.

BIRDS OF THE WILD ("How to Make Your Home Their Home")

By Frank C. Pellett. Tells what plants to plant to attract wild birds as well as giving habits and descriptions of the wild birds. An original subject treated by a man of 20 years experience. 128 pages, 5 x 7½, 74 halftones. 1928. Cloth, \$1.85, postpaid.

FOUNDATION PLANTING

By Leonard H. Johnson. Shows how to beautify the immediate frontage of the house by means of plants. 236 pages, 7½ x 10 with 208 halftones and planting plans of mostly frontages with a few sides and rears. 1927. Cloth, \$3.65.

FIRST COUNTY PARK SYSTEM

By Fred'k. W. Kelsey. A history of the development of the parks of Essex County, N. J. 300 pages, illustrated. Cloth, \$2.00.

EVERGREEN HEDGES

A small leaflet, Kelsey Nursery Service. Free.

HOW TO PLANT

Sixteen-page booklet, Kelsey Nursery Service. Free.

CULTIVATED EVERGREENS

By L. H. Bailey. Recognized as the best handbook on the woody evergreens. 434 pages; 163 illustrations. \$3.15.

STANDARD CYCLOPEDIA OF HORTICULTURE

By L. H. Bailey. The one universal and invaluable authority. Makes a compact but thorough presentation of the kinds, characteristics and methods of cultivation of plants. 3,637 pages; 5,000 illustrations, three vol. \$25.00.

THE NURSERY MANUAL

By L. H. Bailey. An extended list of plants with propagation methods. 453 pages; 240 illustrations. \$2.60.

THE PRUNING MANUAL

By L. H. Bailey. Instructions on just how and when to prune trees, shrubs, and vines. 400 pages; 381 illustrations. \$2.60.

MANUAL OF CULTIVATED TREES AND SHRUBS

By Alfred Rehder. The most complete reference available on trees and shrubs. The "Supreme Court" for decisions about plants. 967 pages. \$10.50.

CONSTRUCTIVE FORESTRY FOR THE PRIVATE OWNER

By J. J. Crumley. A guide to profitable management for the private timber owner. 340 pages; 80 illustrations. \$3.65.

MANUAL OF TREE AND SHRUB INSECTS

By E. P. Felt. Identification and control of insects attacking shade and forest trees, shrubs, and ornamentals. 398 pages; 256 illustrations. \$3.65.
